AOFT301 - FOOD PROCESSING TECHNOLOGY

Time: 3 hrs. **Max Marks: 75**

SECTION - A (10x1=10)

Answer ALL the questions

1. Which of the following refers to the bioburden in food products
   a) Number of microorganisms
   b) Quantity of raw materials
   c) Number of consumers
   d) Number of workers involved

2. The ideal preservative for bread and baked goods is
   a) Sodium acetate b) Vinegar
   c) Propionates d) Benzoates

3. Drying involves
   a) Removal of water b) Adding salt heavily
   c) Adding sugar d) All the above

4. Which process doesn't require heating?
   a) Drying b) Frying
   c) Blanching d) Simmering

5. Quartz-mercury vapour lamps emit radiation at which wavelength?
   a) 260 nm b) 254 nm
   c) 240 nm d) 265 nm

6. The simplest dryer used in food preservation is

a) Oven b) Evaporator

c) Freezer d) Cooker

7. Which chemical is used to disinfect water?

a) Iodine b) Sodium chloride

c) Dilute Hydrochloric acid d) Chlorine

8. The food items are assured that they are safe to consume by

a) Consumer laws b) Microbiological criteria

c) Marketing regulations d) Labour laws

9. Ice cream falls under which type?

a) Gel b) Foam

c) Emulsion d) Liquid

10. Ropiness is associated with which of the following?

a) Egg b) Milk

c) Meat d) Vegetables

SECTION – B (5 x 3 = 15)

Answer any FIVE questions

11. Write a note on asepsis.

12. Write a note on Canning.

13. Explain the term heat penetration.

14. Distinguish between intermediate moisture foods and dried foods.

15. Write short note on Microwave processing.

16. Write short note on FDA.

17. Briefly describe packaging of milk products.

SECTION – C (5 x 10 = 50)

Answer ALL the questions

18. (a) Describe the maintenance of anaerobic conditions in food preservation.

(Or)

(b) Classify foods. Give examples.

19. (a) How heat treatments are employed in processing of foods.

(Or)

(b) Give a detailed account of low temperature storage.

20. (a) Elaborate on the role of radiation in preserving foods.

(Or)

(b) Explain different methods of radiation used to preserve foods.

21. (a) Give a detailed account of various national agencies involved in food control.

(Or)

(b) Write an essay on Hazard analysis in food industries.

22. (a) Explain the process of food preservation by additives.

(Or)

(b) Describe the process of butter production in detail.
