Reg. No									

St. Joseph's College of Arts & Science (Autonomous)

St. Joseph's College Road, Cuddalore – 607001

B.Sc DEGREE EXAMINATION APRIL 2021

ASCS301S - STATISTICAL METHODS FOR COMPUTER APPLICATIONS - I

Time : 3 hrs **Max Marks :75**

SECTION - A (10x2 =20)

Answer ALL the questions

1. State the different types of bar diagram.
2. Define percentile
3. Define mode.
4. Write down the formula for mean deviation.
5. What is kurtosis?
6. State the different types of skewness.
7. Define correlation.
8. Write down the regression equations.
9. What is meant by interpolation?
10. State Newton's forward interpolation formula.

SECTION - B (5×5=25)

Answer ALL the questions

11 a. Briefly explain the scope of statistics.

(Or)

b. What is frequency histogram and state its use.

12 a. Calculate the median for

Profit	2-4	4-6	6-8	8-10	10-12	12-14	14-16
Frequency	23	27	25	50	75	38	18

(Or)

b. Write short notes on Standard deviation and coefficient of variation.

13 a. Briefly explain the various methods of studying skewness.

(Or)

b. Explain the different types of kurtosis.

14 a. What is scatter diagram? Show the different types of correlation with scatter diagram.

(Or)

b. Explain the steps involved in fitting of straight line.

15 a. Explain Lagrange's method of interpolation.

(Or)

b. Explain graphical method of interpolation.

SECTION - C (3×10=30)

Answer any THREE Questions

16. What do you mean by tabulation? State and explain the different parts of a table.

17. Calculate the Standard Deviation from the following data.

Marks	0-10	10-20	20-30	30-40	40-50	50-60
No. of Students	4	6	20	10	3	7

18Calculate the Karl Pearson's coefficient of skewness for

C-I	0-10	10-20	20-30	30-40	40-50
f	12	25	30	10	8

19. Calculate the regression coefficient of y on x for

X	10	15	13	12	11	11	17
Y	16	18	26	21	13	21	25

20. From the data given below estimate the number of persons living between the age of 32 and 42 by using Lagrange method.

Age(years)	20	30	40	50
No. of persons living	513	439	346	243

****
