St. Joseph's college f Arts & Science (Autonomous)

St. Joseph's College Road, Cuddalore–607001

B. Sc DEGREE EXAMINATION-APRIL 2021

EBC613B- MEDICAL PHYSIOLOGY

Time: 3 hrs **Max Marks: 75**

SECTION-A (25X1=25)

Answer ALL the questions

I. Choose the best answer: (10X1=10)

1. Circulatory system consist of ----------

a) Heart & blood vessel b) blood vessel c) heart d) Nerves& blood vessel.

2. Which part is referred heart of heart?

a) Purkinji fiber b) AV node c) bundle of His d) SA node

3. Enzymes are ------- produced by living cells

a) Carbhohydrates b) Antibodies c) Catalysts d) Aminoacids

4. Emulsification is brought about by -----

a) Lipase b)Proteases c) Bile d) Dipeptidase

5. The volume of air inspired & expired during normal breathing is called----

a) Tidal volume b) Residual volume

c) Anatomical dead space d) Physiological dead space

6. Nephritis is the inflammation of ----------

a) Neuron b) Kidney c) Nerves d) liver

7. The neurotransmitters responsible for the transmission of impulses are

a) Acetyl choline b) Adrenaline c) Choline d) Dopamine

8. -------- makes up the main bulk of the human brain.

a) Cerebellum b) Mid brain c) Thalamus d) Cerebrum

9. Which muscles are referred as voluntary muscles

a) Cardiac muscles b) striped muscles c) unstriped muscles d) smooth muscles

10. -------- is the basic unit of myofibril?

a) Thin filaments b) Thick filaments c) Sarcomere d) Myosin

II. Say true or false (5X1=5)

11. O blood group person is called universal recipient.
12. Erythroblastosisfoetalis is a haemolytic disease.
13. The inborn reflexes are conditional reflexes.
14. Once the muscle is stimulated it is not excitable to a second stimulus for a brief period is called refractory period.
15. Decreased flow of urine is called dieresis

III. Answer all the questions (10X1=10)

16. Write any two importances of blood group studies?
17. What is cardiac output?
18. Define deglutition.
19. Name the enzymes involved in lipid digestion
20. Short note on chloride shift.
21. Reflex action
22. Define synapse and its types.
23. Give two functions of cerebellum.
24. Note on Muscle & types.
25. What is muscle twitch? Name the instrument use to measure muscle twitch?

SECTION-B (4X5=20)

Answer any FOUR of the following:

26. Write an essay on blood groups.
27. Describe Cardiac cycle.
28. Give an account on carbohydrate digestion.
29. Explain Bohr' effect.
30. Explain the neuromuscular junction.
31. Write an account on sliding filament theory.

SECTION-C (3X10=30)

Answer any THREE of the following:

32. Explain in detail about structure and function of heart.
33. Explain the absorption of proteins.
34. Describe the formation of urine
35. Give a detailed note on O2 and CO2transport.
36. Draw and explain the ultra-structure of skeletal muscle.
